SUMMARY

As a web developer aspiring to build a career in technology and engineering, I am proficient in both front-end and back-end development processes. With strong API development experience using C# and .NET, and the ability to create user-friendly interfaces with JavaScript and Vue3, I have honed my problem-solving, leadership, and communication skills during my tenure as a .NET Developer at Detaysoft. My long-term goal is to combine my engineering expertise with management skills to become a project manager.

PROFESSIONAL EXPERIENCE

.NET Intern | Rementsoft

Ankara, Turkey | July 2024 – September -2024

- Responsible for developing applications using Vue3 for front-end and C# for back-end.
- Actively involved in fast-paced application development processes within a start-up environment.
- Developing applications for the UNAM project.
- Participated in client meetings to understand requirements and shape projects accordingly.

Part-time .NET Developer | Detaysoft

Sivas, Turkey | October 2023 – March 2024

- Actively contributed to the development of the GIB project, gaining experience in developing applications for corporate projects.
- Applied advanced technologies such as Docker, Jenkins, Microservices, Entity Framework, RabbitMQ, and Quartz.
- Acquired knowledge in writing SOLID-compliant code and sprint methodology.
- Learned hierarchical structure and project management processes in a corporate environment.

.NET Intern | Ministry of Environment, Urbanization, and Climate Change,
Software Development Department

Ankara, Turkey | July 2023 – August 2023

- Analyzed project development phases, team assignments, and scrum processes.
- Gained experience in front-end development with jQuery and back-end API development with C#.
- Observed server setup, operations, and load balancing processes.
- Completed C# tasks assigned by the team leader and actively contributed to project development processes.

EDUCATION

Sivas Cumhuriyet University

September 2020 – Present

Bachelor of Science in Computer Engineering (Evening Education) | 4th Year

GPA : 3.44

English: Intermediate (B1 Level)

SKILLS & EXPERTISE

- | | | |
|--------------------------------|---------------------------------|----------------------------------|
| • C# Programming | • JavaScript Programming | • Full-Stack Project Development |
| • .NET Web API Development | • Project Development with Vue3 | • Git Usage |
| • Back-end Architecture Design | | |

PROJECTS

Dershane Study Management System

- Developed this web application using ASP.NET MVC, C#, and MSSQL, offering fundamental functions such as student registration, teacher scheduling, and customizable reporting tools.
- The application integrates with an MSSQL database and provides a secure and scalable infrastructure.
